To whom it may concern:

I respectfully submit that, we the listners, not the NAB, have the right to choose what we listen to on our radios. I am a sales professional and as such benefit greatly from listening to the XM Radio broadcasts of local and regional weather and traffic conditions. I choose to listen to and gladly pay for the privelege to do so. I am VERY GLAD that XM Radio provides the aforementioned programs. The local stations don't offer them nearly enough, or when I need them ie. 5:16 PM, 3:13 PM. XM Raqdio offers them 24/7 JUST LIKE I NEED THEM !!

I also respectfully urge the FCC to REJECT NAB'S petition 04-160 oughtright !!

I suggest the NAB affiliated stations UPGRADE THEIR PERFORMANCE and truly listen to what the public wants vs. asking the FCC for PROTECTION !!
